Communications in Science and Research

- Writer and editor, with an emphasis on plain language, for print, audio, video and online.
- Successful in finding creative ways to engage audiences of all technical levels
- Strategic planning for events, internal communications, public relations, donor relations and crisis communications in academic, non-profit and corporate environments.
- Executive communications and media training.

Education

Master of Arts in Professional Writing
Carnegie Mellon University, 1999

Bachelor of Arts in Biological Sciences
University of Delaware, 1996; Minor in Philosophy

Recent Experience

DuPont

(2019– Present)

Communications Program Manager, Science and Sustainability

- Supports DuPont's Chief Technology and Sustainability Officer; scripts, advises, and prepares presentations for the CTSO to internal stakeholders and external audiences.
- Manages corporate communications for sustainability, innovation and technology.
- Coordinates internal processes for external award nominations.

Lockheed Martin Corporation

(2014 – 2019)

Communications Manager, Advanced Technology Laboratories (ATL)

(2017 – 2019)

- Led communications support for ATL and Lockheed Martin's Global R&D enterprise.
- Served as a member of ATL's senior leadership team, and responsible for a team that handles HR, STEM community relations, internal, external and proposal communications support.
- Developed internal branding for the Lockheed Martin Center for Innovation (The Lighthouse).
- Co-created an innovative science/music presentation for the South by Southwest festival in Austin, TX.

Thought Leadership Lead, Rotary and Mission Systems (RMS)

(2016 – 2017)

- Developed successful engagements with think tank analysts in key technology areas.
- Enabled speaking events for Lockheed Martin technology thought leaders.
- Coordinated product messaging across RMS for executive briefings, trade show materials and media relations.
- Awarded the Lockheed Martin Comet award for individual communications work in Directed Energy and as part of the communications team for the T-50a training jet.

Communications Representative, RMS

(2014 – 2015)

- Led strategic communications for a \$3B product portfolio, with supervisory roles in media relations, trade show, and web communications.
- Managed executive communications and crisis communications for the General Manager of the 5,000-person Moorestown facility.

(continued)

Previous Experience

The Wistar Institute

(2010 – 2014)

Associate Director of Communications

- Coordinated communications for donor, media, and internal audiences.
- Served as lead science communicator for public relations and fundraising.
- Edited and wrote for Wistar donor publications, including Wistar's Annual Report and *Focus*, Wistar's semiannual magazine for the Institute's supporters.

Fox Chase Cancer Center

(2008 – 2010)

Director of Science Communications

- Pitched and coordinated national and local media coverage of ongoing research at Fox Chase.
- Aided Fox Chase scientific and administrative leaders in strategic communications planning.
- Established social media presence for Fox Chase.

American Association for Cancer Research

(2007 – 2008)

Senior Manager, Science Communications

- Promoted research findings published in AACR's five top-tier scientific journals
- Wrote and edited AACR promotional materials, documents and communications
- Selected scientific abstracts for promotion at AACR's Annual Meeting and several conferences and meetings throughout the year; hosted press briefings

University of Pennsylvania

(2000 – 2007)

Science Writer/News Officer, University Communications

(2003 – 2007)

- Promoted research findings and scientific accomplishments of scientists and engineers across three schools of the University of Pennsylvania: Arts & Sciences, Engineering and Veterinary Medicine.
- Served as liaison to the advancement office of Penn in response to an international focus on the injury of the racehorse Barbaro. Conducted press briefings, arranged interviews and wrote numerous press releases.
- Edited *Research@Penn* publication and established the Penn Science Café.

News Officer, University of Pennsylvania Health System

(2000 – 2003)

- Wrote basic science-oriented press releases for research conducted at Penn's School of Medicine.
- Aided media outlets to promote UPHS events, and supervised media on UPHS property.

Technical Skills

Science/Technical writing. Donor communications. Executive media and presentation training. Speechwriting.
